State Board Accepts Settlement Agreements in Two Cases

At its meeting on May 27, 2014 the Ohio State Board of Registration for Professional Engineers and Surveyors accepted settlement agreements from Joshua M. Carney and Kowalski Engineering, Inc.

Joshua M. Carney, P.E., a resident of York, PA, submitted an application for registration in Ohio in which he failed to report a previous disciplinary action taken by the Pennsylvania State Board of Professional Engineers for providing engineering services with an expired license. In order to avoid further action for violations of the Ohio Revised Code, Mr. Carney entered into a settlement agreement wherein he agreed to pay a \$250.00 fine, comply with the laws and rules governing the practice of engineering, and receive a reprimand.

Kowalski Engineering Inc. of Cincinnati, OH, offered and provided engineering services in Ohio at a time the firm did not possess a Certificate of Authorization with this Board. In order to avoid further legal action for violations of the Ohio Revised Code, Kowalski Engineering, Inc. entered into a settlement agreement wherein the firm agreed to comply with the laws and rules governing the practice of engineering, pay a \$1,000.00 fine, and receive a reprimand.

ABOUT THE BOARD

The Ohio State Board of Registration for Professional Engineers and Surveyors is the state agency that regulates and licenses the professions of engineering and surveying in Ohio. The Board has approximately 30,000 registered professional engineers and professional surveyors, 2,600 registered engineering and surveying firms and administers more than 2,500 licensing examinations yearly. The Board's mission is to safeguard the health, safety, property and welfare of the citizens of Ohio by providing effective licensure and regulation of professional engineers, professional surveyors and engineering and surveying firms.
